- a timeline of the major events and contributions for your civilization.
- the divisions of society: how the rich lived, how the poor lived, was it casted society? Was there opportunity for moving up?
- what contributions (inventions and developments) did the society make to the world and history?
- what were the major religions of the society? Are the religions of this civilization still around?
- what were the major cities, where were they? Did the cities have anything unique or really cool!
